SUSHANT TRIPATHI

Data Analyst | Business Analytics Automation | Dashboards & Reporting
sushant.tripathi2000.st@gmail.com | +91-9140631755 | LinkedIn

PROFESSIONAL SUMMARY

Computer Science graduate (B.Tech, VIT Bhopal, 2025) with hands-on experience building production Python (FastAPI, Pandas) applications, automated reporting pipelines and KPI dashboards for business stakeholders. Strong SQL and PostgreSQL foundations with data warehousing concepts. Built an LLM-powered candidate assessment system (people analytics) and uses AI-assisted development to ship faster. Seeking to build analytics products for senior leadership in Human Capital Global Analytics & Reporting.

TECHNICAL SKILLS

Python & Engineering	Python, FastAPI, Pandas, NumPy, REST APIs, Webhooks, OAuth 2.0, Git, GitHub, Jupyter
Dashboards & Visualization	Power BI (DAX), Looker Studio, KPI Dashboarding, MS Excel
Data & Databases	SQL, PostgreSQL, MongoDB, ETL, Data Modelling, Schema Design, Data Validation, Query Optimization, AWS S3
Cloud & Automation	Google Cloud Run, Cloud Scheduler, Secret Manager, Google Workspace APIs, SMTP, Report Automation
AI-Assisted Development	LLM and Claude API Integration, Prompt Design, AI Coding Assistants for Delivery Speed and Code Quality

EXPERIENCE

Infinyty Tech Global Solutions Oct 2025 – Present
AI Data Analyst / Business Analyst

LetzRyd – Fleet & Partner Operations Platform

- Built a production **FastAPI REST and webhook service** for Rapido ingesting real-time Captain and Order Status events into **PostgreSQL**, with **API-key authentication**, payload and status validation, and structured processing for reliable third-party data ingestion.
- Designed PostgreSQL **UPSERT** workflows for incremental order updates that preserve trip fare, captain earnings and other financial attributes across the order lifecycle.
- Architected a **multi-tier relational schema** (drivers, partners, financials) with **referential integrity**; led **schema optimization** and cross-environment migration, improving query performance and data consistency.
- Deployed on **Google Cloud Run** with Secret Manager for credentials; automated recurring data pulls using **Cloud Scheduler** and Cloud Run jobs.
- Built an **Uber Fleet API pipeline** (OAuth, exponential-backoff rate-limit handling, scheduled incremental loads) and **Google Sheets-to-PostgreSQL ETL** with deduplication and **QC/QA Excel reports** for stakeholders.

People Verse – AI-Powered Candidate Assessment (HR / People Analytics)

- Architected an automated hiring-assessment pipeline using **LLMs** to generate structured MCQs, competency mappings and subjective evaluations from job descriptions.
- Integrated **Google Forms and Drive APIs** (OAuth 2.0) and converted unstructured LLM output into structured Excel reports with Pandas; SMTP automation **cut manual hiring workflow by 80%**.

TONA – Marketing & Campaign Analytics

- Built end-to-end ETL from AWS S3 into analysis-ready datasets, **reducing report turnaround from 2 days to same-day**.
- Designed interactive **Power BI dashboards** translating campaign data into KPIs for leadership to track performance and optimize spend; consolidated fragmented sources into an **automated BI pipeline**.

PROJECTS

- **Customer Behaviour & Shopping Trend Analytics:** Performed **exploratory data analysis, customer segmentation and retention analysis** using Python, Pandas, NumPy and SQL to identify purchasing patterns and drivers of customer behaviour.
- Built an **interactive Power BI dashboard** tracking retention rate, revenue by segment and product performance KPIs for business decision-making.
- **BlackCoffer Insights Visualization & Analytics:** Developed an **interactive Business Intelligence dashboard** analyzing global business trends across intensity, likelihood, relevance and regional dimensions.
- Designed **dynamic filters, pivot tables**, charts and visualizations that convert raw datasets into clear, actionable business insights.

EDUCATION

Vellore Institute of Technology, Bhopal 2021 – 2025
Bachelor of Technology – Computer Science & Engineering CGPA: 8.28

CERTIFICATIONS & ACHIEVEMENTS

- **Certifications:** SQL (Basic, Intermediate, Advanced) – HackerRank; Power BI – Microsoft / Simplilearn; Full Stack Web Development (MERN) & GenAI – Udemy, 2025.
- **Achievements:** Solved 250+ DSA problems on LeetCode and GeeksforGeeks.
- **Publication:** Co-authored The Role of Large Language Models (LLMs) in Healthcare.
